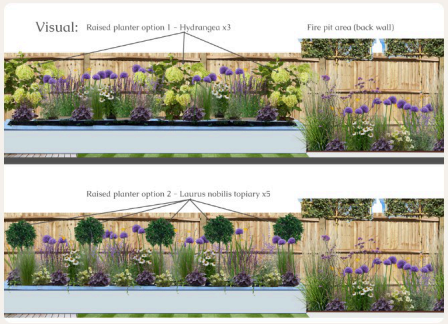
Your client can’t picture the planting. So they don’t sign.

You nail the patio, the walls, the garden room. Then the planting goes on the quote as “allow £2,000 for plants”, and the job looks thin. I design the planting under your logo, so your client sees exactly what they’re buying.

1 · THE PLAN



2 · WHAT THE CLIENT SAW

3 · WHAT GOT BUILT

Make planting a clear part of the proposal.

A designed scheme helps your client understand the planting. Price the plants, labour and site requirements clearly, with a margin based on your actual costs.

What you get, with your logo on it

01 **Mood board and palette** to win the client’s heart

02 **Scaled planting plan** your team can set out from

03 **Visuals** so they see it before they sign

04 **Plant schedule with quantities**, ready to order and price

05 Aftercare guidance for your client, to help the planting establish.

06 Turnaround agreed for your project, from drawings, photos and measurements.

Pro Landscaper 30 Under 30
Top 30 in the UK

New Company winner
Pro Landscaper Business Awards 2023

£20k–£150k gardens
Designed, priced and built, 6 years

Optional design service. Scope, revisions, timing and fee agreed before work starts. Plants and installation are not included unless separately agreed.

Bring one job you’re quoting this week. I’ll show you what the planting could add to it.
