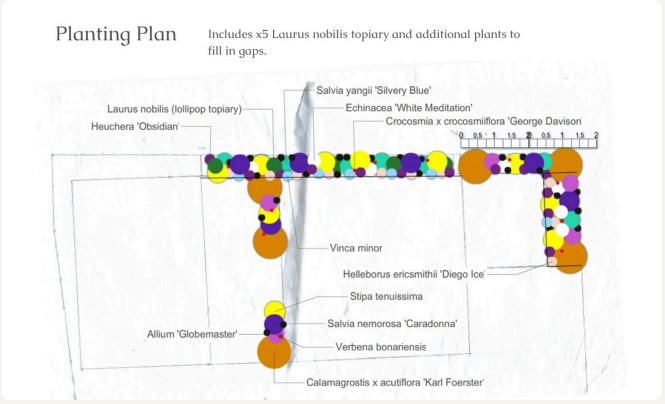
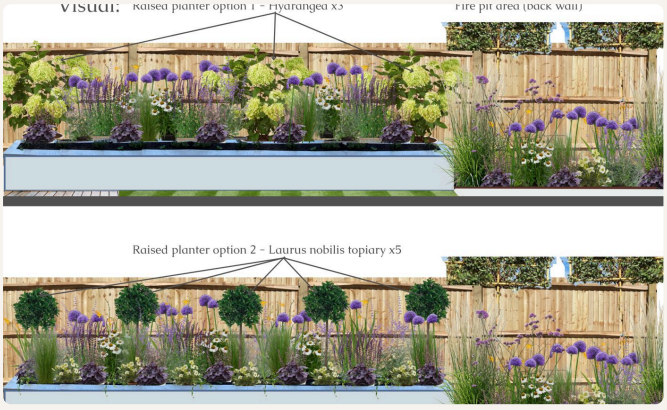
From empty plot to finished garden

01 Mood board and colour palette

02 Scaled planting plan



03 Visuals before a single plant goes in



04 Aftercare: when it flowers, when to prune

EXAMPLE CARE GUIDE - TAILORED PER PROJECT

Salvia 'Caradonna'
Flowers May to October. Cut faded spikes to get a second flush.

Bay topiary
Evergreen all year. Trim the ball with secateurs in summer.

Grasses and perennials
Leave over winter, cut back in February.

05 The finished garden, brought to life by your team

A design journey for your clients, presented under your logo.
Design service quoted separately. Plants and installation by arrangement.
